**8. BUSINESS MODEL/BUSINESS OVERVIEW AND STRATEGY:**

**Business Overview**

The Company is involved in the exploration, mining, and processing of iron ore, alongside its value-added businesses. The Company and its subsidiaries operates iron ore mining sites in Goa, Odisha and Karnataka. Its value-added operations include the production of pig iron, metallurgical coke, Ferrosilicon and power generation, with three blast furnaces, two power plants and a ferro-silicon plant. Our Group is one of the leading iron ore producers in India in Fiscal Year 2026. During Fiscal Year 2026, we produced 9.9 million DMT of saleable iron production.

Iron Ore Segment focuses on the exploration, mining, and processing of iron ore. It is one of the largest merchant iron ore miners in India, with mining operations in Goa, Karnataka and Odisha, contributing significantly to the Company's overall production capacity. Karnataka is strategically advantaged by access to private railway sidings, ensuring efficient evacuation and competitive logistics. Goa Mines benefits from a 50-year mining lease and is located within 30 km of Vedanta's Pig Iron Plant and close to the port, providing strong integration benefits. Odisha Mines primarily supports the Bokaro steel plant, ensuring secure backward integration for iron ore supply. Karnataka has seen a clear shift toward domestic sales, rising from 49% in FY24 to 60% in FY26, with exports reducing to 40%. Goa maintains a relatively balanced mix, with domestic share improving from 50% in FY25 to 58% in FY26.

Below are the historical Run-of-Mine ("ROM") production details of iron ore:

Odisha Mine	Mn DMT	4.42	3.93	3.32

Value-Added business engages in the production and sale of pig iron, metallurgical coke power and ferro-silicon. This operates with 3 blast furnaces with a total capacity of 1.2 MTPA in Goa, 3 met coke production facilities with a capacity of 0.52 MTPA in Goa - 0.12 MTPA in Maharashtra and -0.65 MTPA in Gujarat, 2 power plants of 65 MW combined in Goa and 5KTPA ferro-silicon plant. Metallurgical coke in Goa & Maharashtra is used for captive consumption, and the excess is sold in external market. Metallurgical coke in Gujarat will be used for external sales.

ESL's manufacturing facility is a greenfield integrated steel plant located near Bokaro, Jharkhand, India, which has a current capacity of 1.6 MTPA hot metal production. It primarily consists of one sinter plant, a vertical coke oven plant, two blast furnaces, an oxygen plant, a lime calcination plant, a steel melting shop, a wire rod mill, a bar mill, a captive power plant and a ductile iron pipe plant. ESL is selling primarily TMT bars, wire rods, ductile iron pipes, pig iron and steel billets in open market and has established its presence in the domestic market. It also deals in iron ore, pig iron, and iron and steel scrap products related to its manufacturing. Expansion plan underway to enhance the capacity to 3.2 MTPA hot metal production.

Western Cluster Limited has three (3) mining concessions with total R&R of 3.7 BnT.

**Strategies:**

**Digitalization and automation as efficiency enablers**

VISL will leverage digitalization and automation to unlock efficiency by reducing manual interventions, improving process reliability, and enabling faster, data driven decision making. This focus will structurally lower costs, enhance productivity, and support scalable, sustainable growth.

**Operational Excellence and Cost Leadership**

VISL strives for all-round operational excellence to achieve benchmark performance across its business, by debottlenecking its assets to enhance production. Our efforts are focused on enhancing profitability by optimising its cost and improving realisation through the right marketing strategies. Wet beneficiation at IOK and a 2 MTPA pellet plant at IOO will enhance Fe recovery and therefore margins.

**Optimise capital allocation and maintain strong asset base**

A key strategic priority for VISL is to maintain and grow strong cash flow through disciplined approach on capital allocation towards capital expenditure and operating expenditure; along with disciplined management of working capital. As we continue to ramp up our portfolio of products and invest in developing cost efficient and well-invested assets, we expect to generate significant organic free cash flow with minimal remaining capital expenditure. Vedanta Iron & Steel continues to invest strategically across high impact growth projects, with approved capex program of INR 3,801 crore. Key investments include expansions across the Iron Ore Mines in India like Wet Beneficiation plant in Karnataka, the Ductile Iron Pipe facility in Goa and major upgrades across the ESL steel complex. As of March 31, 2026, the Company has already incurred INR 2,413 crore, providing a strong pipeline of future growth and operational enhancement opportunities. These projects are aligned with Vedanta's objective of strengthening integrated capacities, improving cost competitiveness, and supporting long term value creation.

**Committed to environmental, sustainability and corporate governance leadership**

VISL is committed to operate responsibly and ethically, with a focus on environmental stewardship and improving the quality of life in communities across its operational areas. These efforts support inclusive growth, long term community development, and sustainable value creation for all stakeholders. Iron Ore Business continues to strengthen its sustainability leadership with a water positivity ratio of 1.14.

**Risk Management**

VISL is committed to maintain a robust risk management framework to proactively identify and manage key operational, financial, and regulatory risks. Disciplined mitigation and contingency planning, along with prudent management of commodity price volatility and foreign exchange exposure through policy led hedging and diversification, underpin earnings resilience, cash flow stability, and long term value creation.

More details on Business Model/ Business Overview and Strategy are provided on Page 81 of the Information Memorandum available on the website of the Company at <https://www.vedantaironandsteel.com>.

**9. RATIONALE FOR THE SCHEME OF ARRANGEMENT:**

- VEDL has interests in multiple businesses including metals, mining, and exploration of natural resources (zinc-lead-silver, iron ore, steel, copper, aluminium, nickel, and oil and gas) and power generation.
- Each of the varied businesses carried on by VEDL by itself or through strategic investments in subsidiaries or through affiliate companies (including the Aluminium Undertaking, the Merchant Power Undertaking, the Oil and Gas Undertaking, and the Iron Ore Undertaking) have significant potential for growth and profitability.
- The nature of risk and competition involved in each of these businesses, financial profiles and return ratios are distinct from others and consequently each of the abovementioned business undertakings is capable of attracting a different set of investors, lenders, strategic partners, and other stakeholders. The manner of handling and management of each of the abovementioned businesses is also distinct.
- In order to lend enhanced focus to the operation of identified businesses, VEDL proposes to segregate and organize these businesses as separate entities, through demergers of each of the Aluminium Undertaking, the Merchant Power Undertaking, the Oil and Gas Undertaking, and the Iron Ore Undertaking.
- The following benefits shall accrue on demergers of the Aluminium Business (as defined hereinafter), the Merchant Power Business (as defined hereinafter), the Oil and Gas Business (as defined hereinafter), and the Iron Ore Business (as defined hereinafter):
  - creation of independent global scale companies focusing exclusively on mining, production and/or supply of aluminium, iron-ore, copper, oil & gas and on generation and distribution of power and exploring new opportunities and taking advantage of the growth potential in the said respective sectors;
  - enabling greater focus of management in the relevant businesses thereby allowing new opportunities to be explored for each business efficiently and allowing a focused strategy in operations;
  - each of the independent companies can attract different sets of investors, strategic partners, lenders, and other stakeholders enabling independent collaboration and expansion in these specific companies without committing the existing organization in its entirety;
  - enabling investors to separately hold investments in businesses with different investment characteristics thereby enabling them to select investments which best suit their investment strategies and risk profiles;
  - enabling focused and sharper capital market access (debt and equity) and thereby unlocking the value of the Aluminium Undertaking, the Merchant Power Undertaking, the Oil and Gas Undertaking, and the Iron Ore Undertaking and creating enhanced value for shareholders.

The Scheme is in the interests of all stakeholders of VEDL, Resulting Company 1, Resulting Company 2, Resulting Company 3, and Resulting Company 4.

## 16. INTERNAL RISK FACTORS:

Our business is subject to a number of internal risks that could materially affect our operations, financial condition, results and share price. The most immediate arise from the integration uncertainties of the Demerged Undertaking (Iron Ore Business Undertaking) and our recent demerger from VEDL, which may leave us exposed to unrecorded, undisclosed or contingent liabilities and without an established record of operating on a standalone basis. Our iron ore mining operations depend on obtaining and renewing mining permits and approvals from state governments in Karnataka, Goa and Odisha, and any delay or denial could adversely affect production and revenues. We are subject to regulatory risks including the impact of Supreme Court mining bans (such as the ban that affected Goa mining operations), Forest Department proceedings, and environmental clearance requirements for our mines and processing facilities. Our results depend on the availability and cost of raw materials including coal, coke and iron ore, and on commodity price volatility in iron ore, steel, pig iron and metallurgical coke. Our subsidiary ESL Steel Limited faces expansion risks related to its capacity expansion from 1.6 MTPA to 3.2 MTPA hot metal. We are subject to extensive environmental, sustainability and regulatory compliance requirements across our mining and manufacturing operations. Potential tax liabilities transferred under the Scheme, restrictive covenants in financing agreements, and the FIR registered against our Promoter, Anil Agarwal in connection with the Athena Power Plant explosion on April 14, 2026, represent additional risk factors. Additional factors that could cause the Company's actual results, performance or achievements to differ materially include, but are not limited to those discussed in the section titled "Risk Factors" on page 20 of the Information Memorandum.

Further, actual results may differ materially from those suggested by the forward-looking statements due to risks or uncertainties or assumptions associated with the expectations with respect to, but not limited to, regulatory changes pertaining to the industry in which the Company operates and our ability to respond to them, our ability to successfully implement our strategy, our growth and expansion, technological changes, our exposure to market risks, general economic and political conditions which have an impact on our business activities or investments, the monetary and fiscal policies of India, inflation, deflation, unanticipated turbulence in interest rates, foreign exchange rates, equity prices or other rates or prices, the performance of the financial markets in India and globally, changes in domestic laws, regulations and taxes, changes in competition in its industry and incidents of any natural calamities.

More details on "Internal Risk factors" is provided on page no. 20 of the Information Memorandum available on the website of the Company at <https://www.vedantaironandsteel.com>.

## 19. BRIEF DETAILS OF OUTSTANDING CRIMINAL PROCEEDINGS AGAINST THE PROMOTERS:

## A. Criminal proceedings involving our Promoters

**Proceedings filed by SEBI against Sterlite Industries India Limited (now merged with VEDL) for alleged violation of provisions of the SEBI (Prohibition of Fraudulent and Unfair Trade Practices relating to Securities Market) Regulations, 1995**

Pursuant to SEBI's order dated April 19, 2001, prohibiting SILL from accessing the capital markets for a period of two years and ordering prosecution proceedings against SILL, through its directors namely Anil Agarwal, Tarun Jain and Shashikant for the Alleged Violations, SEBI filed a criminal complaint against Sterlite Industries India Limited (now merged with VEDL) ("SILL"), its Director, Anil Agarwal and others before the Additional Metropolitan Magistrate, Esplanade in relation to the alleged violation of Regulations 4(a) and 4(d) of the SEBI (Prohibition of Fraudulent and Unfair Trade Practices relating to Securities Market) Regulations, 1995. SILL filed a criminal application before the Bombay High Court to stay the criminal proceedings initiated by SEBI through its criminal complaint since the SEBI order dated 19 April 2001 was set aside by SAT. The Bombay High Court subsequently admitted the application and granted an interim stay on the criminal proceedings. This order continues to be in force as on date. The matter is currently pending.

**Proceedings initiated against BALCO for abatement, cheating and commission of criminal breach of trust in respect of the deposit, commission**

Ajaykumar Padia ("Complainant") initiated criminal proceedings against BALCO and its Directors before the CJM Pune, alleging cheating and criminal breach of trust. Despite a police report suggesting the dispute to be of civil nature, the CJM issued process. The Bombay High Court has granted a stay, and the matter is currently pending.

## B. FIR

**FIR registered against our Individual Promoter and others in respect of the Athena Power Plant explosion**

On April 14, 2026, a boiler explosion occurred at Unit-1 of TSP's Athena Power Plant in Chhattisgarh, resulting in fatalities and injuries to certain contractor and sub-contractor personnel. Pursuant to an operation and maintenance contract, the plant was being operated and maintained by NTPC-GE Power Services Limited ("NGSL"), a JV between NTPC and GE Power Services Limited. An FIR under Sections 106, 289 and 3(5) of the Bharatiya Nyaya Sanhita, 2023, has been filed naming eighteen individuals including eleven personnel of NGSL and seven personnel of TSP, including Anil Agarwal, Promoter & Non-Executive Chairman of the Company. Multiple regulatory authorities and law enforcement agencies are currently investigating the incident.
